Citywide Racial Equity Goals and Strategies

**EQUITY GOAL #1**
We will end racial disparities within city government, so there is fairness in hiring and promotions, greater opportunities in contracting, and equitable services to all residents.

**EQUITY GOAL #2**
We will strengthen outreach, public engagement, and access to City services for communities of color and immigrant and refugee communities, and support or change existing services using racial equity best practices.

**EQUITY GOAL #3**
We will collaborate with communities and institutions to eliminate racial inequity in all areas of government, including education, criminal justice, environmental justice, health, housing, transportation, and economic success.

**OVERALL STRATEGIES**

1. **Use a racial equity framework:** Use a racial equity framework that clearly articulates racial equity, implicit and explicit bias; and individual, institutional, and structural racism.

2. **Build organizational capacity:** Commit to the breadth and depth of institutional transformation so that impacts are sustainable. While the leadership of electeds and officials is critical, changes take place on the ground, through building infrastructure that creates racial equity experts and teams throughout the city government.

3. **Implement a racial equity lens:** Racial inequities are not random; they have been created and sustained over time. Inequities will not disappear on their own. It is essential to use a racial equity lens when changing the policies, programs, and practices that perpetuate inequities, and when developing new policies and programs.

4. **Be data driven:** Measurement must take place at two levels—first, to measure the success of specific programmatic and policy changes; and second, to develop baselines, set goals, and measure progress. Using data in this manner is necessary for accountability.

5. **Partner with other institutions and communities:** Government work on racial equity is necessary, but insufficient. To achieve racial equity in the community, government needs to work in partnership with communities and institutions to achieve meaningful results.

6. **Operate with urgency and accountability:** When change is a priority, urgency is felt and change is embraced. Building in institutional accountability mechanisms using a clear plan of action will allow accountability. Collectively, we must create greater urgency and public commitment to achieve racial equity.

Family Classes

Family classes are designed for parents, guardians, and children to interact and participate together. Our philosophy is to honor the child’s creative impulses—focusing on process, rather than product. Visual art classes provide instruction in the use of art materials and techniques, and encourage each child’s individual style of visual expression. We recommend both adult and child wear grubbies as these classes can be messy. All materials are included. Clean-up is part of all MAC Youth Art classes.

SUMMER SOLSTICE
by Christine Colasurdo

The lengthening of days closes now upon us but light is all we have and need—abundant light of backlit leaves on cloud-bright days, of bathers basking midst blinding waves of sun’s straight beams, of buttered sunsets behind blue ridges fading, Light leans into light, green leafs into green.

Before dawn light birds break to song and windless air hangs nectar-sweet in the darker corners of the garden. Flickers wake the neighborhood with ravenous rapping—a springtime call to breed that brings us summer's cheeping and bugs down gullets of hungry fledglings with gawky wings. What's born for flight now flies; each seed slips into being.

Noon light enflames the veins of all that works toward bloom. Tomatoes stretch so fast one hears the chafe of cellulose. Bare feet can’t walk on rock cooked hot to bake an egg. Soon we’ll know the eager heat of growth and yearning. Soon we’ll sleep with windows sifting the nighttime breeze. Sap rises into branch; heat begs each tree to breathe.

Evening light brings shade and shadows—and now we face Earth’s gradual tilt from sun’s intractable sphere. The solstice of our scheme-filled days calls us back to season-centered ways of nature’s rhythmic workings. Thus grounded, Earth’s gorgeous trek we celebrate. Each dream warms toward life; warm life enlivens dreams.

POEM IN YOUR POCKET

April 27th is Poem in Your Pocket Day, a national event organized by the Academy of American Poets.

The concept is pretty simple: pick a poem to carry throughout the day and share it with friends, neighbors, colleagues, or even on Twitter using the hashtag #pocketpoem.

If you’ll be at MAC on April 27th, join us in celebrating by having a poem on hand to share!

Poly Plate Lithography w/ Chine Collé Ages 13 & Up
This highly accessible form of lithography grew from the process of commercial offset lithography, but does not require harsh or unhealthy chemistry. Using a thin plastic sheet as the vehicle to print on, transfer or draw an image directly onto the plate. Chine Collé is the process of adding unique and colorful papers to your fine-art print. With sharpies, draw pictures on polyester lithograph plates, ink them up, then transfer the composition to your carefully cut Chine Collé papers on an etching press. Students will leave class with a small edition as well as a working knowledge of lithography. Price includes a $20 studio and materials fee which is non-refundable after class begins. Inclusion Services for People with Special Needs

Within the Americans with Disability Act (ADA) of 1990, Portland Parks and Recreation (PP&R) provides accommodations to individuals with disabilities/special needs, so that they may receive an equal opportunity to participate in programs offered citywide.

HOW IT WORKS

1. Choose the activity you would like to participate in, and then the PP&R site where the activity is being offered.

2. Register for the activity. You can do this in person at a PP&R site, or online at www.PortlandParks.org. When registering, let the person know that you will need accommodations in order to participate in the activity (online, check the box.)

3. Once registered, please contact Inclusion Services at 503–823–4333. If this is your first accommodation through Inclusion Services you will need to do a phone intake with a staff member. At the end of the phone intake, it will be determined whether an assistant will be needed on the first day of the activity to provide on-site support. Future assistance will be provided based on need. The inclusion staff will work with the instructor on how to support you and your individual needs.

IMPORTANT DETAILS

A general program may be adapted using auxiliary aids and services, but the basic structure of the program remains the same. Accommodations are made as needed, and can be flexible and creative. Participants need to register for activities that are intended for their birth age. Personal care is provided for activities in the pre-school and youth category, up through age 12.

If you have questions about Inclusion Services, please call 503–823–4333/TTY. A minimum of 10 business days (Monday–Friday) advance notice is required. The Inclusion Services staff will do their best to accommodate each participant.

Dear Friends,
What is equity and how does it make our community a better place? To me, it’s about providing each individual a level of service that gives each person the same opportunity to participate and learn what they want to. It’s about proactively removing barriers to access due to conscious and unconscious bias. It could be a new class, a scholarship, an inclusion assistant, a translation, an opportunity, or even a question. It’s something we’re learning together, and there’s lots more to do. I’m still trying to fully answer this complex question with my fellow citizens and there’s plenty more to do, Portland. If you have ideas on how to make MAC more inclusive, I’d be glad to hear from you.

Michael Walsh, MACA Executive Director
