

Materials List – Papermaking

- No need to bring anything to the first class; almost all materials are included.
- It is a wet process so you may want to wear/bring something like an apron or shirt to change into (we have aprons, but once they get wet, you may want a change!)
- The teacher will give you ideas of optional items to bring the following week.
- MAC provides the molds to use, the pulp/linters, dried flowers, collage items, natural items, color, etc.
